1. INTRODUCTION

Veritas Reach thanks Strong Bod Fitness Centre for the opportunity to respond to your Request for Proposal (RfP).

Established in 2011 in Hong Kong as a creative studio, Veritas Reach has grown into a dedicated agency with 30+ professionals. We have partnered with over 55 clients in wellness, active living, and consumer sectors. Early campaigns delivered 12–18% average increases in engagement/revenue; our rebranding work now achieves 15–25% growth in memberships/traffic in the first year, with Q1 gains of 10–18% from targeted launches.

What distinguishes us is our complete brand evolution approach—we lead full customer experience transformations, not just marketing.

Key advantages:

- **Integrated physical and visual reinvention** — Advise on upgrades like new Sai Kung locations (nature/suburban appeal), modern equipment (functional/recovery zones), refreshed colors/logos, promotional deals (bundles/passes), and facility optimization (2,000–3,500 sq ft inclusive layouts with outdoor ties).
- **Precise targeting backed by real audience data** — Use demographics, behavior, and engagement metrics for efficient reach, higher response rates, and lower costs than broad ads.
- **Results-oriented evolution** — Incorporate revenue-expanding ideas (diversified offerings/partnerships) to build community anchors with long-term impact.

Past related clients include:

- **Pure Fitness Hong Kong** — Led full digital rebrand and targeted social campaign, resulting in 32% membership growth in the first year and 25% increase in online inquiries in Q1 through Instagram/TikTok ads and app-integrated promotions.
- **California Fitness & Yoga** — Oversaw brand refresh and marketing strategy (as part of regional team), achieving 28% uplift in class bookings in year 1 and 35% growth in social engagement via data-driven content and community events.

Are we HK based company or intenational?

Case studies, testimonials, and metrics are available on our website [www.veritasreach.com]. We look forward to demonstrating how this approach can elevate your brand.

2. PROPOSAL SUMMARY

This project is essentially looking at four areas of work:

• **Market research and analysis** to identify target market segments, initially focused on Sai Kung and Greater Hong Kong.

Guangdong Hong Kong Macro Greater Bay Area?

Initial reviews of local demographics and fitness trends suggest three high-potential niches:

Need footnotes to cite the statistics

15 - 24yrs old :40 400 (8.1% of District Population)

https://www.swd.gov.hk/en/pubsvc/district/wongtaisin/districtpr/skpp/index.html?utm_source=copilot.com

- Youth aged 14–24 (estimated 150,000–200,000 secondary/tertiary students in the area, with low motivation and only ~12.9% meeting WHO 60-minute daily moderate-vigorous guideline);
- Seniors aged 55+ (estimated 80,000–100,000 in district, high participation ~80% exercised recently but often lacking structured low-impact options); and
- Families/suburban residents (estimated 120,000–150,000 households, community-focused with outdoor/family needs).

These will be validated through surveys, focus groups, and social media listening (Instagram/TikTok/Facebook). We expect 45–60% of validated segments to convert to trial users/members via gamified online funnels driving in-gym attendance.

• **Rebranding and identity development** to create a motivating position. Our creative team will test refreshed concepts (suggested new name e.g., "Sai Vital Core"), logo (greens/blues for nature/energy), and palettes via A/B testing and focus groups to maximise appeal and differentiate from urban chains.

do we need to actual point out what name or color will be used for rebranding?

• **Marketing and campaign execution** to deliver the message and balance traffic. Build online audience first with niche gamified content (TikTok/Instagram HIIT challenges for youth to build drive/habit and unlock gym access; Pilates videos with childcare for elderly/housewives); collect data (engagement, demographics) to refine targeting; and plan promotions (discounts, bundles, app trials). Rollout evolves over 12 weeks with real-time adjustments to funnel leads to gym visits.

• **Measurement and optimisation** to track and adjust. Define KPIs (lead-to-gym conversion, sign-ups, retention, traffic) and build dashboards (Google Analytics, social/app tools) for weekly monitoring and quick fixes (e.g., boost youth gamification).

These are discussed more fully in Section 3, Our Approach.

We expect the project to be completed within 12 weeks, depending on research response timing and campaign performance, and we propose bi-weekly review meetings in Hong Kong between our Project Lead and your key contact so any hold-ups can be addressed and resolved quickly.

so that?

Suggested Membership Package Plan (integrated into promotions):

Tier	Monthly Price ($HKD)	Key Benefits
Basic (Online-First)	$198/month	App gamified challenges, virtual classes, progress tracking; builds drive before gym commitment
Core (Hybrid)	$598/month	Basic + unlimited in-gym access, Pilates sessions; converts online users to regular visitors

Memerbership package plan should be putted in our approach?

Premium (Community)	$898/month	Core + family bundles, outdoor events, priority childcare; targets families/suburban loyalty

Based on our experience, we estimate a price for the project of HKD 460,000 to HKD 480,000, depending on final segment scope and advisory selections. We will refine this estimate at the end of the market research phase. The basis for our costing is shown in Section 5 below

3. OUR APPROACH

would

Need citation of statistics?

Given Strong Bod's need to attract niches and balance traffic amid HK's ~5.85% gym penetration, we use a phased, data-driven process. We build online momentum first (gamified content for youth drive), convert leads to gym visits, refresh branding, and measure results. Physical upgrades are advisory only (no implementation costs in scope).

Conduct survey (online/in-person)
- demographic study of Sai Kung's youth/families distribution
- market segment identification
(maybe change a little bit of the wording?)

More target finds:
such as-Actual Youth activity levels
Demands for low-impact Pilates
Demands for reliable childcare service

The overall schedule is:

Task	Description (key actions)	No of weeks	Comment
1. Market research & segment validation	- Surveys (online/in-person N=500+) - Focus groups (8–10 per niche) - Social media listening (Instagram/TikTok/Facebook insights)	2–3	Identifies barriers (e.g., youth low drive ~12.9% meet WHO guideline); informs gamified solutions.
2. Rebranding & identity testing	- Develop/test name (e.g., "Sai Vital Core") - Logo/colors (greens/blues for nature/energy) - A/B testing & focus groups	2–3	Maximises appeal; youth/seniors/families tested separately for resonance.
3. Campaign planning & content development	- Gamified assets (youth HIIT challenges on TikTok/Instagram apps) - Pilates videos + childcare prompts (seniors) - Family reels/events (suburban) - Promotions & data setup	3–4	Online-first: gamification builds youth habit; funnels leads to gym unlocks.
4. Campaign rollout & optimisation	- Launch ads/email/social content - Real-time monitoring & adjustments - Focus on lead-to-gym conversion	3–4	Bi-weekly reviews for quick fixes; balances traffic to avoid low-usage waste.

should we use no.day base on example?

- should seperate mention pilates and child-care service provided
- (and i dont think family reels/event need to be mention)
-may need more details of promotions and data setup part

! standardlize the pattern of description!

5. Measurement & final reporting	- Track KPIs (conversion, sign-ups, retention, traffic) - Build dashboards (Google Analytics/social/app tools) - Deliver report + recommendations	1–2	Provides ROI visibility (e.g., gamified youth impact); supports ongoing management.

would?

We complete the project in 12 weeks for launch during peak seasons (e.g., post-holiday surge). We propose bi-weekly review meetings in Hong Kong between our Project Lead and your contact for quick issue resolution. Other team members join remotely as needed.

Intentional mention twice?

could?

This approach builds online drive (especially youth via app gamification), converts leads efficiently, refreshes the brand, and delivers growth. Advisory on physical upgrades (e.g., equipment/location scouting) is consulting only; implementation is excluded and managed separately by Strong Bod.

4. OUR TEAM

- **CEO (Strategic Lead): Ishan** — 18+ years in risk & compliance, marketing, strategy. Goldman Sachs Asia (35%+ efficiency gains), HSBC Greater China (40%+ ROI campaigns), McKinsey Asia. Oversees strategy and risk.
- **Talent Management: Alko** — 15+ years in HR/talent. Ogilvy Hong Kong (45% engagement growth), Deloitte Asia-Pacific, Google Greater China (50% faster delivery). Manages resources.
- **Creative Director: Jacky** — 16+ years in branding. TBWA Hong Kong (50% social growth), BBDO Asia, McCann Hong Kong (40%+ awareness uplift). Leads logo/name/visuals.
- **IT Development and Support: Peter** — 14+ years in digital. Cyberport startup (40% online views increase), Accenture Hong Kong, Tencent (60%+ engagement lift). Manages app/analytics.
- **Finance Manager: Henry** — 17+ years in finance. Deloitte Hong Kong (<10% below budget), Hong Kong Government Efficiency Office, PwC Asia (30%+ savings). Ensures budget/ROI.

5. PRICING, TERMS AND CONDITIONS

can the part 5 show in next page but not seperating the data?

*Project Cost Breakdown (estimated and will be refined after market research phase)

Item	Description	Estimated Amount ($HKD)
Market Research & Analysis	Surveys, focus groups, social media listening, segment validation	120,000

Every new item should be on a new line
(base on cava example)

Design new company name and logo with signature color characteristics
A/B testing for rebranding approach
Collect focused group feedbakc

Rebranding & Identity Development	Suggested new name testing, logo/colors design, A/B testing, focus group feedback	140,000
Marketing & Campaign Execution	Gamified content creation, digital ads setup, promotions, data collection tools	130,000
Measurement & Optimisation	KPI dashboards (Google Analytics, social/app tracking), weekly monitoring, final report	70,000
Total Estimated =	(Includes 2 revision rounds per deliverable; excludes taxes)	**460,000 – 480,000**

*Payment Terms and Conditions

Item	Details
Payment Schedule	30% upfront upon acceptance; 40% at creative approval (end of rebranding phase); 30% on completion and final report delivery
Revisions	Up to 2 rounds per deliverable included; additional rounds at HKD 5,000 per round
Timeline	Completion within 12 weeks; delays due to client feedback may extend schedule
Cancellation	50% of paid fees retained if cancelled after research phase; full refund if before
Confidentiality	All materials and data remain confidential; NDA available upon request

We will refine the estimate after the market research phase based on final segment scope and advisory selections. The detailed basis for our costing is available upon request.

i think still need a final paragraph for ending like David just said, about stuff like thank you or thinks for reconsidering?

i think we definely need statistics to support as David sounds really love the footnotes and citation
